COMPARISON OF WEIGHT/BALLAST OPTIONS

PRODUCT	POUNDS PER GALLON	TYPICAL RETAIL PRICE PER POUND	SAFETY FACTORS	TEMP RATING	CHARACTERISTICS
Beet Juice Tire Ballast	10.7-11.0	\$0.28	Very Safe	-35°F	Non-corrosive. Environmentally safe and non-toxic. No tubes or mixing required.
Water	8.3	\$0	Very Safe	+32°F	Corrosive. Not an option in any climate where freezing temperatures are possible.
Weights	N/A	\$1- \$2	Safe	N/A	Most expensive per pound. May place extra load on axles and frames depending on placement.
Calcium Chloride	10.5-12.0	\$0.10 - \$0.20	Corrosive and Toxic	-35°F	Must be mixed on-site. Can destroy rim and valve stem if leaks. Highly toxic, burns skin and contaminates soil.
Windshield Washer Fluid	7.8-8.3	\$0.23 - \$0.30	Toxic	-25°F	Tubes required for safety. Toxic to animals and can contaminate ground water.
Methanol	<8.0	\$0.20 - \$0.30	Highly Flammable	-15°F	Must be mixed with water. Highly flammable and weighs approximately 30% less than beet juice.
