ECHO OFFERS CUSTOMERS A STRONG VALUE PROPOSITION

Full-Featured Cordless Products at a Good Price

58V battery platform *combines light weight with maximum performance*

- Professional grade, high quality
- Longer run times, quicker recharges
- One battery system, multiple tools

ECHO Cordless products complement a full line of gas-powered products for flexibility to meet any need.

**ONE BATTERY SYSTEM.
MULTIPLE TOOLS.**

CORDLESS BLOWER

CPLB-58V2AH

A powerful blower with premium features, 15% greater performance (MPH and CFM) and 1/3 the charge time as ECHO's primary competitor.

- Turbo button delivers 550 CFM for a 26% boost in air volume
- Variable-speed trigger for ultimate power control
- Cruise control for user convenience

CORDLESS CHAIN SAW

CCS-58V4AH

Professional-grade performance significantly outperforms the competition with longer bar length, larger battery capacity and half the charge time for comparable cost.

- 3/8" low-profile 16" bar and chain for larger cutting
- Side-access chain tensioning for easy adjustments
- On-board tool storage for user convenience to tension chain

CORDLESS LAWN MOWER

CLM-58V4AH

Outstanding cutting performance capable of mulching. Includes several premium features and a 4AH battery, which can be used in ECHO's other 58V products.

- Dual-battery storage for on-board convenience and minimal job disruption
- 3-position handle and 7-position wheel adjustments can be configured to accommodate almost any user and grass height
- Grass bag and mulch plug included

CORDLESS PAS TRIMMER

CST-58V2AH

Unmatched versatility utilizing 7 additional attachments from ECHO's Pro Attachment Series™ (PAS). Lowers cost of ownership while meeting the needs of multiple applications.

- Accepts attachments for greater flexibility for a wide range of tasks
- Variable-speed trigger and high/low speed switch for ultimate power
- 14-16" adjustable cutting swath for more run time or aggressive cutting

Pro-Torque™ Trimmer

Tiller/Cultivator

Brushcutter

Straight-Shaft Edger

Standard Hedge Trimmer

Mid-Reach Hedge Trimmer

Articulating Hedge Trimmer

CORDLESS DEDICATED TRIMMER

CDST-58V2AH

A lightweight trimmer with 20% wider cutting swath, three times the run time and half the charge time as ECHO's primary competitor.

- Light weight, 10.5 lbs. for easy handling and less user fatigue
- High/low speed switch for more power or extended run time
- 14-16" adjustable cutting swath for more run time or aggressive cutting

CORDLESS HEDGE TRIMMER

CHT-58V2AH

Maximum productivity with 24" double-sided, double-reciprocating blades, which are 30% longer than the competition. Superior blades save time and effort while providing outstanding cutting performance. Has twice the run time and half the charge time as ECHO's primary competitor.

- 24" double-sided, double-reciprocating blades for extended reach
- Up to 3/4" cut capacity
- Anti-jam technology
